## DID YOU KNOW...?

With over 25 years in the Hydrovac Excavation industry, Badger has over 150 locations and 1,300 units to provide 24 hour stand-by service to its customers.

## SAFETY IS BADGER'S TOP PRIORITY!

Badger Daylighting™ is committed to the highest of standards for our employees and customers. We have enjoyed and promoted a culture of Safety for over 25 years.

Badger Operators are trained through our Mentor Training Program. Our carefully selected Mentors train and mentor new Operators on The Badger Unit, safe work practices, specific job procedures, safety hazards and recognition, professionalism, customer service and defensive driving.

- **Safety** — helps prevent damage to underground infrastructure
- **Time is Money** — keeps projects on schedule/improves returns for infrastructure owners
- **Precise excavation** — can reduce the size and amount of excavating required
- **Excavate in hard-to-reach areas** — dig over 600' away from the unit in areas with limited access
- **Excavate through frozen ground**

## BADGER HYDROVAC VERSATILITY

Badger Daylighting™ and the Badger Hydrovac System, delivers industry wide compliant and trusted daylighting services to Engineers and the Engineering industry. Badger Operators are up-to date with the most recent construction codes and practices thus providing Engineers with viable solutions to solve project challenges.

The Badger Hydrovac System has proven to be the most efficient, safest and cost-effective solution for Engineering Professionals and the digging of test holes and other daylighting activities. Badger vacuum units can quickly and safely excavate around buried pipes and cables, in a multitude of climatic conditions – even in frozen ground.

## BADGER'S SOLUTION FOR THE ENGINEERING INDUSTRY

- ✓ Break through and excavate frozen ground in temperatures as low as -40C
- ✓ Daylighting
- ✓ Debris removal
- ✓ Hydro Excavate over 50' deep and up-to 600' away from the Badger Hydrovac unit
- ✓ Locating and Hydro Excavate safely next to buried civil and electrical infrastructure
- ✓ Piling and test holes
- ✓ Safely dig through varied soil conditions including clay, frozen ground and compacted earth
- ✓ Trenching

## ABOUT BADGER

Badger Daylighting™ is the industry leader in non-destructive hydro excavation services. Since 1992, Badger has been innovating leading-edge technology and providing services to a diverse customer base including oil and gas, energy, industrial, construction, transportation and other markets, as well as numerous government agencies within the United States and Canada.

For more than 25 years, Badger has been committed to creatively solving our client's infrastructure needs and challenges by delivering a safe and reliable hydroexcavation services.
