## SAFETY IS BADGER'S TOP PRIORITY!

Badger Daylighting™ is committed to the highest of standards for our employees and customers. We have enjoyed and promoted a culture of Safety for over 25 years.

Badger Operators are trained through our Mentor Training Program. Our carefully selected Mentors train and mentor new Operators on The Badger Unit, safe work practices, specific job procedures, safety hazards and recognition, professionalism, customer service and defensive driving.

- **Safety** — helps prevent damage to underground infrastructure
- **Time is Money** — keeps projects on schedule/improves returns for infrastructure owners
- **Precise excavation** — can reduce the size and amount of excavating required
- **Excavate in hard-to-reach areas** — dig over 600' away from the unit in areas with limited access
- **Excavate through frozen ground**

## BADGER'S HYDROVAC RAIL COMMITMENT

Customers undertaking projects within the rail right-of-way are working in areas with significant subsurface utility congestion. Badger can safely dig in these locations in a fraction of the time required to hand dig the same application. As a result, Badger customers benefit by improved safety, increased productivity, and lower costs on such projects.

## WHO CAN BADGER HELP:

Capital Projects / Repair & Maintenance /  
Emergency Response for:

- ✓ Maintenance-of-Way.
- ✓ Signals & Communication.
- ✓ Bridges & Structures.
- ✓ Rail Yards.
- ✓ Contractors or Engineers undertaking any project that encroaches on the rail right-of-way (ROW).
